Dedication to a Very Special Person

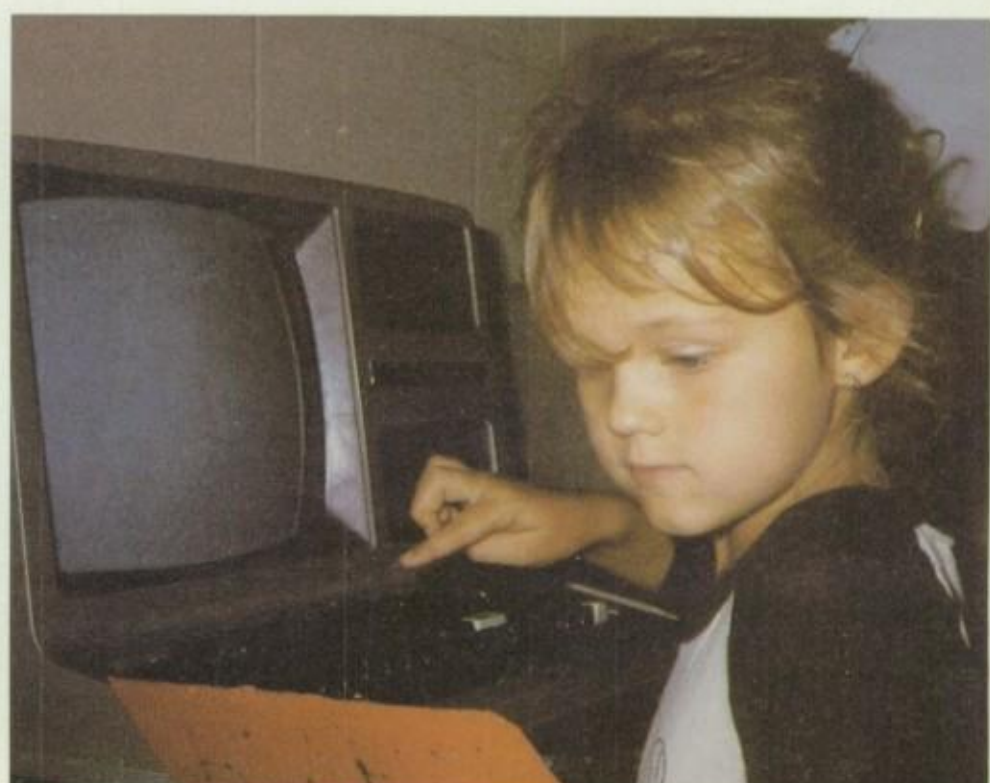

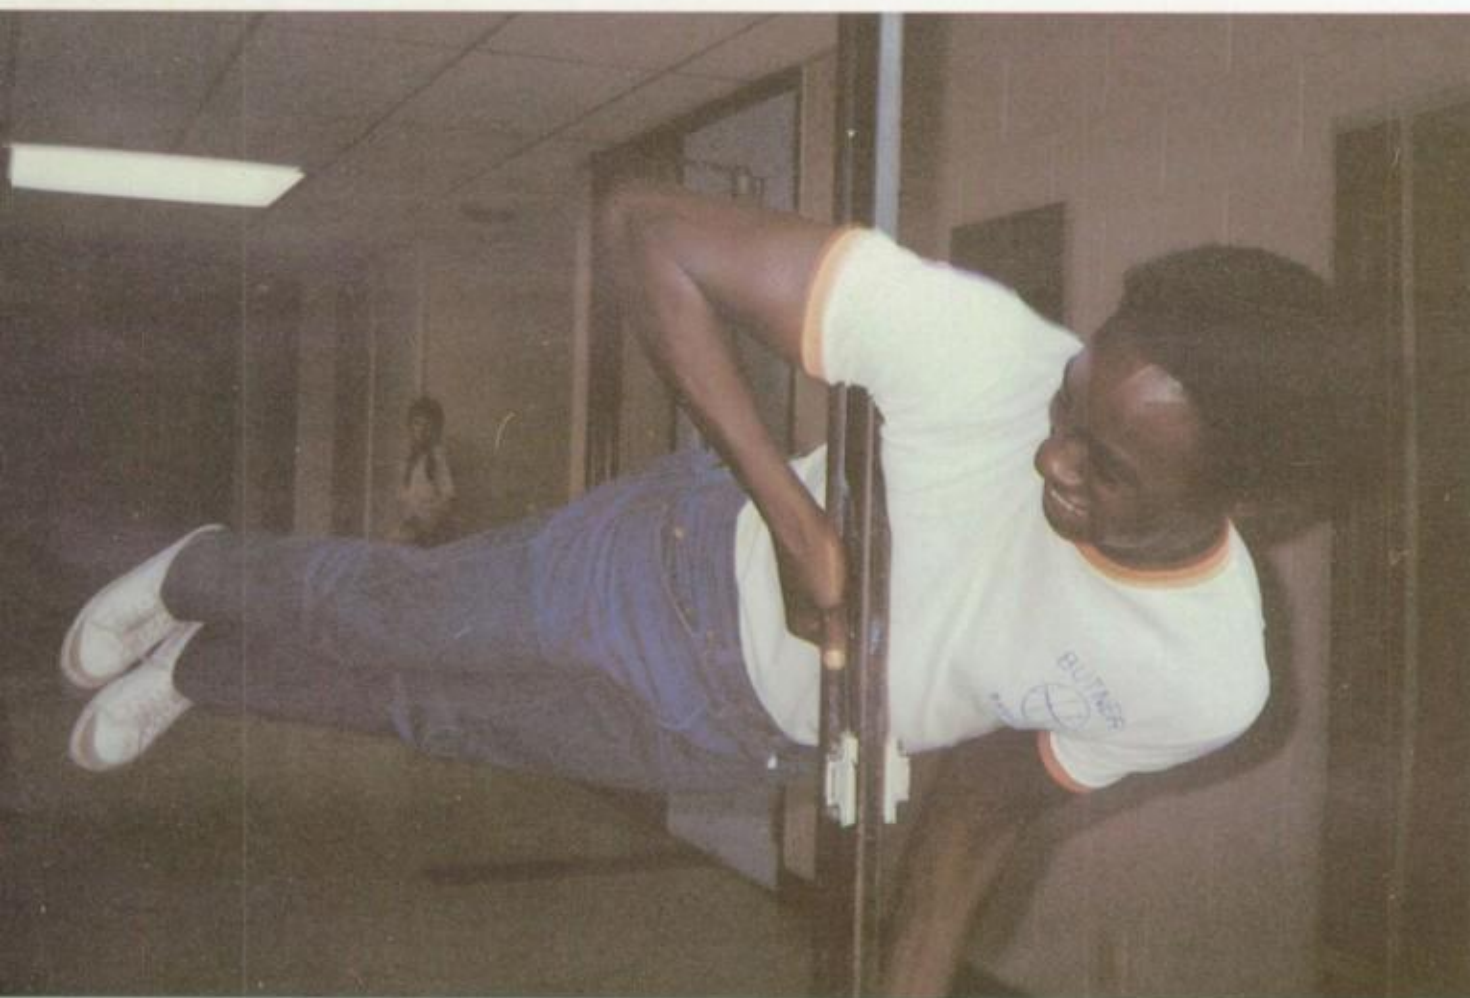

Each year the *Eagle* is dedicated to a member of the Butner staff who has been loyal and supportive to the school. The person this annual is dedicated to has not only been a good teacher, but a good friend. The reason we think she is so special is because she cares, not only about classwork but about our personal lives. She brightens the lives of each and every person she comes in contact with. This annual was put together with more love and care because we wanted it to be special for her. She always gives her love and support in everything she does, and for this, we dedicate the 1984 *Eagle* to Mrs. June Yahola.

We Do It Eagle Style

Here are the Butner Eagles. They range from ridiculous to total maniacs. They are so awesome, some are nearly incredible.

Good Times at Butner High

With every person it's the same old gripes: This year's no fun; it's boring; we never get to do anything. But if you just look around the campus, you will see people really having a good time. For such a boring school we sure do have some really excellent times.
